Communication

I am very confident when speaking to people. In my time in customer facing roles I have improved upon my confidence and people skills. As a CSR I was the link between the make-line and the customers. I ensured I knew plenty about my role so I could fix issues and answer questions without the need for anyone else.

Leadership

My leadership skills have been gained from being a Sergeant in the RAFAC (Air Cadets). This skill was paramount as I was the highest ranking cadet, and in being, was the one in charge when staff weren't around.
